ano was at once nicknamed the "Russian Deputy," and his name thereafter was printed with a Russian termination.

"Misianoff" became his nickname, and he was greeted by it in every paper he opened to read. He fled from Naples, but in Rome his colleagues advised him to avoid appearing in the Chamber.

He took train for Genoa, but the morning he arrived his tribulations as a character worthy of public attention began. He was hustled out of a cafe, dirven out of his hotel, expelled from a theater, and when he tried to escape by train he was chased from compartment to compartment, till the carabinier finally took pity on him and gave him protection by sitting alongside him. Misiano, or, as he is now dubbed, "Misianoff," who had for years abused and despised the police and carabinieri, feels safe to-day only when he can travel in their company.

He was in hiding for several days, then turned up in Turin and appeared at a Socialist meeting in the local Labor Exchange. At midnight he was accompanied to his hotel by a detachment of royal constables, carabinieri and about 100 Red Guards. It formed a regular parade, which was bound to attract attention, and at the hotel door be was recognized by a company of askisti, who immediately demanded his surrander. There was a lively scuffle, the Red Guards fled and the royal constables alone held their ground to protect the Deputy. Misiano barricaded houself in the hotel and finally was allowed to pass the night there, with ar occasional serenade from the facisti who kept watch till morning.

At B o'clock he wished to go to the Labor Exchange and telephoned to the Police Headquarters for an escort of police, royal constables and carabinieri. The chief of police himself came with a train of trucks containing carabineri. According to these authorities, the pianets Saturn, Jupiter, Mars, Uranus and Neptune dominate all in the Fourth House of the astrological horoscope for 1021. This Fourth House represents the proletariat. When, therefore, in the last trimostre of the year Mars comes to be added to the Sun in conjunction with Jupiter and Saturn it seems probable that the power will pass into the hands of the Socialist party, and that it will exercise it with violence.

In March important reforms will be proposed in parliament (French), but

and violent popular demonstrations.

In May the executive power will at first be opposed to the popular will, and there will be revolutionary tendencies. Conditions will continue to grow worse, and in September there will be a conspiracy, followed by a sudden and deadly uprising, and that under a new ministry the power will pass into the hands of the insurgents. In December the relations of France with England will become strained.

And then it will be "Cheer up! The worst is yet to come!" for "the social transformation will not be completed at the end of 1921."

ly. But the subway is the only place that London does not "queue." During the war the English got in the habit of lining up for everything.

Queues were formed at grocery shops for sugar and butter. Queues were formed before the doors of tea rooms and restaurants. The custom still continues, and queues that run from half a block to a block form nightly before all theaters. Sometimes the people stand for three hours in the fog and drizzle to get a pit seat at a popular play. At such popular restaurants as the Trocadero and the Piccadilly Hotel one must queue for a place at table for dinner, or even for tea.

Queues a block long stretch away from the popular metion picture houses. Docile and patient, the Londoners think nothing of standing in the street for an hour in order to get a chance to spend their money.

Dort Motor Car Company

THE MOST BEAUTIFUL CAR IN AMERICA

For one week-commencing Monday, April 4th.-our Dealers in every section of the nation will conduct a special series of demonstrations with the complete line of Paige cars.

Our "Daytona 6-66" model now holds the world's stock car record for speed. It will be the purpose of Demonstration Week to prove that any Paige car-in the hands of an unprofessional driver-is indeed Master of the Highway.

No other stock car has ever equalled our own speed record of 102.8 miles per hour. No other car, we are confident, can defeat a Paige in the milder tests of general demonstration work.

By proving itself the fastest car, the Paige 6-66 has revealed qualities of endurance and strength that are beyond dispute. World's championship form is a guarantee of all 'round efficiency-the best guarantee that the sporting world affords.

But these are facts that we want you to establish for yourself, and Demonstration Week offers an unrivaled opportunity. You have but to get in

touch with our Dealer and he will book you for a ride that will prove finally convincing.

Then, with an actual record of the tests, you will be in position to compare the Paige 6-66 with any other motor car-at any price-on the American market. .

You will also be able to determine whether the New Series "Glenbrook Six-44" is or is not the greatest dollar for dollar value in the light six

Surely no man could ask for a fairer or more sportsmanlike proposition.

Whether you contemplate buying a motor car or not, we very cordially invite you to ride with Paige during the coming week. It will prove a revelation, we believe-and a liberal education in strictly modern engineering.
